PROFILE

Results-driven **Senior Full-Stack Engineer with 4.5+ years** of experience building **scalable web, mobile, and enterprise systems**. Strong expertise in **React-based** frontend development, component-driven UI architecture, and state management using **Redux and Context API**. Equally experienced in backend engineering with **Node.js, Golang, Dockerized deployments, Azure AD integrations**, and enterprise API ecosystems (**Dynamics 365, SharePoint, Workato**). Focused on performance, modular design, and delivering secure, high-quality software solutions across full lifecycles.

EXPERIENCE

SOFTWARE ENGINEER (BACKEND SYSTEMS & INTEGRATIONS) — SANTEX PVT. LTD. Sept 2024 – Present

- Developed and maintained **Shopify sales channel** applications for merchant onboarding and product synchronization.
- Built and managed **Node.js and Go-based** backend servers across multiple environments ensuring reliability and performance.
- Integrated **Microsoft Dynamics 365, SharePoint, Power Platform and Workato** for enterprise workflow automation.
- Oversaw full-stack lifecycle management from architecture to production monitoring.
- Collaborated with cross-functional teams to deliver scalable and secure solutions.

SENIOR MERN STACK DEVELOPER — MAC WORLD TECHNOLOGY

Feb 2024 – August 2024

- Led development of scalable **React and Node.js** applications.

- Designed responsive UI using **Ant Design and Material-UI (MUI)**.
- Implemented **Redux and Context API** for centralized state management.
- **Architected scalable** application structures and database schemas.
- Mentored developers and conducted code reviews to improve standards.
- Collaborated with designers and stakeholders to build interactive UI experiences.

MID-LEVEL MERN STACK DEVELOPER — SLICKWHIZ SOLUTIONS

2022 – 2024

- Developed modular **React** components ensuring scalable and reusable UI architecture.
- Built responsive dashboards using **Ant Design and Material-UI**.
- Managed application states using **Redux and Context API**.
- Integrated **REST APIs** and optimized frontend performance.
- Developed **SharePoint** sites and implemented **Power Apps and Power Automate** workflows.
- Implemented backend testing using **Jest** to improve reliability.
- Collaborated directly with clients to deliver tailored business solutions.

INTERN / JUNIOR SOFTWARE DEVELOPER — REGEX DOT GLOBAL

2021 – 2022

- Practiced **Android Native Development (Java)** and UI implementation principles.
- Supported senior developers in building and testing web and mobile applications.

EDUCATION

Bachelor of Technology — PAF-KIET University, Karachi — 2021

Secondary School — Govt. National College — 2016

SKILLS

Frontend: React.js, Next.js, Vue.js, JavaScript (ES6+), DOM Manipulation, Ant Design, Material-UI (MUI), Redux, Context API, Responsive UI Development

Backend: Golang (Go), Node.js, Express.js, .NET (C#), REST API Development, Jest (Backend Testing) Databases: MongoDB, SQL Server, MySQL, PostgreSQL, Firebase, Microsoft Dataverse ORMs / Data Access Tools: Entity Framework, Mongoose, Prisma

Cloud & Integrations: Office 365, SharePoint, Dynamics 365, Workato, Azure AD

Infrastructure: Docker, NGINX, Linux Server Management

Version Control & DevOps: Git, Shell Scripting, Deployment Automation

Soft Skills: Team Collaboration, Cross-Functional Communication, Analytical Thinking, Problem.
